Abstract:

Most of us would surely agree that movies, once learned are very hard to forget. Besides, experienced teachers of English understand the importance of using movies in the teaching-learning process for their many benefits. Although primary school students have an innate ability to learn any foreign language, they do not learn it properly if they find their lessons boring. In fact, children learn better through interesting activities. The main objective of this article is to emphasize the importance of using movies in the teaching of English as a foreign language. Actually, they are the tools that help children learn in an enjoyable and relaxed environment without the necessity of making them feel the pressure of learning a foreign language.

Keywords: English movies, new vocabulary, pronunciation, primary school students, speaking skills

Currently, many teachers use film as mastering media or educating materials for students to learn. Movies are very precise for improving language competencies in students, especially speaking competencies because film are outfitted with audio visuals the place in the film students can hear and see firsthand how the correct words and sentences are stated so that students can understand how to pronounce them and they can also practice it when talking to human beings other. They will fill out a questionnaire to discover out how students respond to the use of film as a medium or teaching material and whether they comprehend that observing films will enhance their speaking skills. The effects confirmed that teachers who use film

as a medium or instructing material, instructing and mastering activities end up extra enjoyable and they get new experiences in learning.

Watching movies is a wonderful way for you to improve primary school students English, in particular their speaking skills. Films are now not commonly created for English language inexperienced people – they are made for native English speakers. Therefore, the language is exactly how you hear it in actual lifestyles – it is spoken quickly, with native accents and pronunciation and the usage of many idioms and colloquial expressions. It is now not a correct thinking to use this as your only method of gaining knowledge of English; it is a good deal more really helpful to study at an English school. However, I would honestly endorse all English language college students to watch motion pictures in English in their spare time for additional exercise that you may no longer get in a classroom.

Movies can also be referred to as movement picture, or greater oftentimes called as film. According to Arsyad (2002), movie is a collection of pictures that live and can be played. A movie can be played the usage of technology tools, such as TV and additionally a massive display in the cinema. Movies can be used to teach in class. Teachers or educators can use quick film to shorten time, and can additionally ask students to watch sure films as reference to improve their vocabulary and their reference to be able to communicate in English. By the use of movie, the learning scenario will be enjoyable and college students can study while searching at the matters that attract their attention. Movie is one form of visual communication, in which there are photos that moving or called as video, and also incorporates of story that can arouse tastes and the interest of the audience (Summer and Della, 2005). Through english movie, college students can receive data and be capable to entertain themselves with the memories in the movie. Thus, a movie can be used to enhance students' speaking skills. By staring at English movie, college students can see at once how the native speakers (the actors and actresses) in speaking the usage of English as their mom tongue. In addition, the state of affairs of getting to know with friends while observing film will make them interested and can revel in the learning process. Kalean (2013), said that educating English through using movie, especially for overseas learner is a correct strategy. English film can assist students to enhance their abilities via identifying the way the actor or actresses speak in the movie.

Watching movies help to improve these categories:

- Speaking competencies – hearing natives speak will also help primary school students speaking skills, specifically their fluency. They will hear how to link your words collectively and the place to put intonation on certain phrases and sentences. Why now not watch motion pictures with your friends and speak about them afterwards? Or they ought to even find film scripts on line and act out scenes with their friends! They can play then the scene to test if their pronunciation were correct.

-Pronunciation – we all know that English pronunciation is extremely tough and when you examine phrases it is challenging to know how they need to be said. Hearing native English audio system discuss to every other will assist you to hear how words are pronounced. If you are the usage of English subtitles, you will additionally be in a position to see how the phrases are written.

-Vocabulary – by gazing English movies, you will hear many new phrases and specifically idioms and colloquial expressions. I would recommend keeping a pocket book with you and writing down any new phrases or idioms you hear and you would like to keep in mind or you do not understand. You can look up the meaning later or ask your English teacher. Put knowledge into exercise to improve your English – in your lessons you will study a lot of vocabulary and grammar but you may additionally not recognize how to use it in real life. Watching English movies will help you understand how to use all the understanding you have learnt in daily situations.

English movie is a proper method to be used in educating talking skill. It is ability that the trainer need to be able to make certain that the college students understand about speaking and are capable to talk after following the getting to know process. Thus, based on research carried out by using researchers, the researchers determined that through the application of gaining knowledge of method through using English movie, it can improve students' abilities in speaking. Therefore, researchers propose to the instructors or educators to use this science based media in teaching talking to the students. Researchers additionally advise the college students to use their technology tools, such as smartphone, laptop, computer, and so on, in gaining access to English films in order to help them in improving their vocabulary and their know-how in speaking effectively in English.
