

## **THE NEIGHBORHOOD OF KHUSHCHEKKA IS PROSPEROUS AND PEOPLE ARE HAPPY**

Nigina Shoeva

Head of the Information Service of the Shorchi district administration

Sometimes in life there are such mind-boggling renewals and changes that these historical processes are recognized as periods of great creativity.

It's no secret that today human interests have risen to the highest level of value in the Republic of Uzbekistan, and a completely new system is being introduced in the process of working with citizens' appeals in the activities of all state agencies. As a result, beautification and construction works are being carried out.

As they say, the prosperity of every city or district begins with the neighborhood, so in the "Khushchekka" neighborhood of the Surkhondarya region of the Republic of Uzbekistan, the "Khushchekka" neighborhood is doing something worth bragging about.

At this point, it can be said that it is not an exaggeration to say that the street workers, beautification workers, old and young people who are working enthusiastically in the neighborhood are united by one common goal, if only that - the desire to make our dear Motherland more prosperous and prosperous.

- The life, destiny, way of life, spiritual atmosphere in our families and the upbringing of children cannot be imagined without the neighborhood, - says Ulugbek Zakirov, governor of Shorchi district. -With the initiative of President Shavkat Mirziyoyev, many values, customs and traditions related to neighborhood life in our independent country are being revived and enriched based on the requirements of the times. In Khushchekka neighborhood, where about four thousand people live, special attention is being paid to improvement of living conditions and beautification works. The well-being and beauty of the neighborhood directly depends on the solidarity and mutual kindness of the residents. After all, where there is harmony, there is peace, prosperity, and tranquility.

"I will contribute to the well-being of my beloved country!" Under the slogan "Enjoyable house", "Enjoyable street" and "Enjoyable neighborhood" have been introduced, and the infrastructure of the area is being radically improved.

The streets of the neighborhood are being cleaned and the stoves in the houses are being whitened. Pillars are being installed and covered cables are being laid. Most importantly, asphalt is being laid on the streets in the neighborhood. In a word, the good initiatives implemented in the neighborhood serve the well-being of the area and the well-being of the population.

In order to implement such a great work, the officials went from house to house, studied the existing problems, and listened to the residents' appeals.

Re-laying of drinking water pipes, repairing internal roads, street lighting, upgrading the electricity network, constructing a new building for the neighborhood office, providing households with domestic gas cylinders on time and providing additional gas cylinders, and solving problems such as road maintenance during house-to-house study. proposals were put forward. Previously postponed problems are being solved step by step.

- Residents are satisfied with the construction and beautification works being carried out in the territory of the neighborhood, - says Nuriddin Karakhanov the chairman of the citizens' assembly of the neighborhood. - In order to provide the population with clean drinking water, water pipes, new pillars were installed, and covered cables were laid. The fact that asphalt was laid on our streets made our citizens happy.

In order to improve the infrastructure of the neighborhood, the comprehensive beautification and creative works are being carried out and good initiatives are serving the well-being of the area and the well-being of the population.
