

## NON-COINCIDENCE MEETINGS TOWARDS NEW HEIGHTS OF TOURISM ACTIVITY

Zokirova Mohinur Navruz qizi  
Tourism Management Worker

Currently, I am working in the field of tourism management in the UAE. My job is to communicate with tourists and when they ask me what country I am from, I can proudly say the name of my country. I also have various meetings with professors and company leaders in the UAE. During my conversation, I improved my work skills. I am currently creating my own projects and I will introduce my new project to the tourism activity of Uzbekistan. These are certainly hundreds of meetings that are not accidental in my life's journey to the top.

Indeed, today, Uzbekistan attracts tourists from all over the world. It is true that the name Uzbek appeared in the 16<sup>th</sup> century. Recognized Samarkand attracts thousands of tourists and is a historical city included in the UNESCO book. During my communication with tourists, I give them concepts such as the history of Uzbekistan, our world-ranked tourist cities and Uzbek national dishes.

One day, an Italian tourist told his family about the beauty of Samarkand and the fact that that he had been there. They were very happy. I gave it to you. There is no water in the rivers, the age of the slaves flows, Caesar still drank blood from the golden cup. Uzbek write U.Nasir said this sentence. Thus, I am the leader who created conditions for my country and their youth. I am proud of it. The development of our country is in the hands of young people like us.

If you want to do something good in this world, let it be only because of God's approval. Because Banda sees what you have done. In the course of our striving, we have to overcome obstacles. It is this situation that makes us strong people. It is not for nothing that they say: Life is the greatest teacher.

I just want to mention one thing. 21 There are those who graduated at the age of 6 and got a job in 6 years. There are those who did not study anywhere and became millionaires at the age of 21. There are those who married at the age of 20 and divorced after 5 years. There are those who married at the age of 30 and lived happily ever after. You didn't stay. You're not early. You're on time.

Make your dreams come true, or someone else will send you to make them come true. And we just have to act and feel confident. Do it. Behind everything that is not increased, there is a good thing that God willed. If I talk about my family, the first

teacher who took me by loving mother. When I was a child, teachers' day was on October 1, colored paper I wrote holiday greetings to others and made flowers from red paper to conforgettable them. And these moments turned into unforgettable moments.

The knowledge acquired in childhood is like a pattern carved on a stone. As I said, I would like to tell another story. What are the apples for? My lover works here, I'm taking the apples for him. How many apples do you have? The girl very slowly: Does a person ever take account of what he takes away because of his hand. When iwas 19 yearsold, I learned to pray in the morningwhile holding the rosary. Along with this, I acquired secular knowledge within the framework of religious knowledge and I closely studied the life and work of our Uzbek created during thisperiod. I would like to mention a sentence of the national poet M.Yusuf.

I would not trade one of the most beautiful restaurants in paris. Currently, during my work in the UAE, I interacted with tourists from different countries of the world and began to learn their worldly knowledge. Each country is created in its own study and study the tourist cities and tourist development potential of this country and apply them to the public. In this way, the tourism development index in each country will in crease.

This result attracts the attention of tourists from different countries of the world and the percentage of the tourism sector of each country increases. In the UAE, the percentage of arrivals of European guests in 5-star international hotels is high, and the percentage of meals is from a minimum of 57% to a maximum of 99%. A person understands through understanding. He learns through understanding and contributes to the development of society by applying what he has learned.

I would like to mention one more thing at the end of my conclusions. The only person you should compare yourself to is the past you. The only person you should be better than is the present you. Never give up. Don't stop and obstacles on the way will train you to be strong. The only fear is to waste time.
