### Annotatsiya:

Tezisdan xorijiy kichik firma va korxonalarining faoliyatini rivojlantirish uchun innovatsion jarayonda ishtirok etuvchi tadbirkorlar evolyutsiyasi va tadbirkorlikning tashkil topishi, shuningdek, hozirda xorijiy davlatlarda tadbirkorlikni o'rni va axamiyati bo'yicha ma'lumotlar keltirilgan. Tesis imliy abstraksiyalash, guruhlash va tizimli tahlil metodologiyalar asosida yozilgan. Yakunda muallif tomonidan yakdil xulosalar va takliflar tizimi ishlab chiqilgan.

**Kalit so'zlar:** tadbirkorlik, kichik biznes, raqamli tadbirkorlik, evolutsiya, konsepsiya, innovatsion texnologiyalar.

Today, the role and importance of small business and entrepreneurship is invaluable in the entire time of innovation development. The reason is known, the feature of business flexibility and rapidly changing in the development of technology and innovation is mainly contained in small firms and enterprises. They create a competitive environment of the economic and social competitive environment through the state and the state of this state. The experience of small business is very developed in particular in foreign countries, and the GDP assesses the population, providing welfare. Look in the development of small businesses and entrepreneurship, Naturally, first of all, the evolution of small business is reflected. According to him, the development of entrepreneurship has emerged in the Middle Ages. In the Middle Ages, traders, craftsmen and missionaries are entrepreneurs, and with the emergence of capitalism escalates by the cultivation of the population. Entrepreneurship was formerly form and slowly become becoming larger joint stock companies, and secondary and large businesses.

These area scholars have conducted a lot of research on entrepreneurship, small business. British economist Richard Cantillon has the concepts of "entrepreneur" and "business" at the end of 17-18 centuries. In the 18th and 19th century, the French economist J.B.Say formed a combination of 3 classical production factors such as land, capital and labor. It is undoubtedly that the business entity holds 3 different facilities in which the same subject prompts the call of an entrepreneur.

We know that in world or local practice, the main number of employees employed in the enterprise or organization is the average number of employees or organizations, as well as smaller countries are small in almost all developed countries The first criterion for classification is workers.

We know that the evolution of the Small Business and Entrepreneurship Development Pays great attention to the development of small business on the basis of science and achievements in Spain. Also, many countries as Germany, France, the United Kingdom and the others based on European Small Business Program for European countries. In this case, the German experience can help us. Germany will also invest in both financial terms, as well as small business subjects could receive soft loans as an example. Preferential loans are given to the following areas:

- ❖ Projects for entrepreneurs to improve and maintain nature, favorable conditions
- ❖ The development of the industry of scientific development and to small businesses and private entrepreneurs operating in this field.
- ❖ To the small business for participating in economic development in unfade areas
- ❖ For small businesses involved in the welfare of construction, housing and welfare businesses
- ❖ Berendics in the field of improving production conditions are small businesses.

The above benefits are supported by the main 2 concepts in Germany "Concept of scientific and technological policy towards small business" and on the "Development of Funding Standards". After all, the first of these programs is to finance small businesses in the state, while the other ensures business start, start up projects, as well as small business development.

In conclusion it is possible to say foreign experiments help to expand our economy and social and educational fields. It is also replenishing the concepts of the welfare of the country, innovation and technology.
